

State of the Art Electronic Recordkeeping Techniques & Technology

EDRMS Project Management – Deep Dive

Duration
8 hours (1 day)

Instruction by Bruce Miller IGP, MBA

EDRMSPMDD 1U

RIMtech Public Online Courses are scheduled periodically and open to anyone. Attendance is limited to optimize the learning experience. We assume your content management platform will be Microsoft SharePoint. All courses are fully and equally applicable to any of the (5) popular records management software products available for SharePoint, with the exception of courses where we teach specific records software products.

This is a
Deep-Dive
Course

RIMtech Advanced EDRMS Course Categories		
Category	Duration	Details
Foundation	1 day	All the fundamental concepts, principles, definitions, and understanding of all elements of modern EDRMS (Electronic Document/Records Management Systems) you need to know. A prerequisite for any Deep-Dive course. A full day dedicated to this critical foundation, versus a half-day within any Introductory-level course. No prerequisites necessary.
Introductory	1 day	Only have 1 day to learn? An introductory-level course is ideal for you. The first half day of all Introductory courses is the same - EDRMS Fundamentals. These fundamentals are essential in order to fully understand the topic covered during the second half of the day.
Deep-Dive	1 day	Need to go deeper? Deep-Dive courses feature more "How To" than introductory courses of the same topic. Two Prerequisites: 1. EDRMS 1U (Electronic Recordkeeping - EDRMS 101) OR any Introductory-level course. EDRMS 1U is strongly recommended. 2. SPRMDD 1U (SharePoint for Information Management Professionals, Deep Dive) OR Strong SharePoint knowledge of Libraries, Columns, Content Types, Document Sets, Permissions

An EDRMS (Electronic Document/Records Management System) can be a complex project with many moving parts. Major components include a retention schedule, records management software, email to SharePoint integration, and of course SharePoint itself. How do all of these parts fit together? What roles will the RIM and IT professionals play? How will you know if the project is successful – what are the measures to prove it? How long will it take? A large project could potentially take years. Attend this course to learn how to manage an EDRMS project of any scale, from initial conception through to post-deployment maintenance. What about migration of documents into a formal recordkeeping system? Migration alone could be a project in its own right. An EDRMS represents a high-impact change in the way people store, share, and retrieve their documents. New skills and methods will have to be developed. Be fully informed so you know exactly what you're getting into. This course is designed and delivered by [Bruce Miller](#), author, educator, independent consultant, leading expert in electronic recordkeeping, and author of "Managing Records in Microsoft SharePoint". He counsels his clients on how to manage EDRMS projects, and also manages projects himself. Bruce is Prince2® project-management certified.

Prerequisites:

- EDRMS 1U** (Electronic Recordkeeping – EDRMS 101)
or
Any Introductory Level Course
- SPRM DD 1U** (SharePoint for Information Management Professionals, Deep Dive)
or
Strong SharePoint knowledge of Libraries, Columns, Content Types, Document Sets, Permissions

Learning Objectives

Upon completion of this workshop, participants will be able to:

- Execute all 26+ tasks required for a typical EDRMS deployment
- Understand the roles of all key stakeholders
- Reliably estimate total project duration, effort, costs
- Identify and mitigate risks of failure
- Utilize outside services to augment internal SharePoint and other skills
- Estimate the needed level of effort to sustain project health indefinitely post-deployment

Who Will Benefit

All EDRMS project stakeholders will benefit from this course, including Records/Information Management professionals, IT managers and specialists, project managers, compliance officials, and senior management.

Takeaway Tools

Participants are supplied with all course materials, including diagrams, reference materials, reusable working templates.

Testimonials

“I loved the performance measure aspect, and 20 suggested decisions. This was worth the cost of the course alone.”

“I really liked the presenter. He engaged the attendees and asked thought-provoking questions that generated some lively conversations.”

“This was one of the most engaging and informative seminars I can remember attending. I got a lot of great takeaways and can enthusiastically tell my employer that this was a productive use of my time and training dollars.”

“Thank you! This course hit the nail on the head – it touched on many of the issues that I see in the workplace and provided me with the guidance and affirmation that will help me to manage these issues. Awesome seminar!”

Instructor

Bruce Miller, MBA, IGP is a world leading expert on electronic recordkeeping. He is an independent consultant, an author, and an educator. Widely regarded as the inventor of modern electronic recordkeeping software, he pioneered the world's first commercial electronic recordkeeping software in 1989. In 1997 he achieved the world's first e-Records software certification against the US DoD 5015.2-STD standard, and has since presided over several successful software certifications. In 1999 he developed the world's first e-Records software **engine** for business software. That year he received ARMA Canada's National Capital Region's **Ted Ferrier Award of Excellence** for his contribution to the field of records management. Bruce's software was the first technology in the world to be certified against the revised 5015.2 June 2002 standard. In 2002 his company was acquired by IBM, where he served for three years as IBM's global e-Records Strategy and Business Development Executive. At IBM he was honored as a *Technical Leader*, one of only 439 out of 360,000 IBM employees. Mr. Miller is the recipient of the prestigious **Emmett Leahy Award**, considered the highest international recognition given to professionals in the field of information and records management. His book *“Managing Records in Microsoft SharePoint 2010”* was an ARMA best seller, and the second edition was released in October 2015. Bruce holds a Diploma in Electronics Engineering Technology, a Masters in Business Administration from Queen's University, and is a certified Information Governance Professional. Throughout his career, he has founded 4 companies:

Provenance Systems
Tarian Software
[RIMtech](#)
[Catalyst IG Tools](#)

World's first electronic records software
World's first reusable electronic recordkeeping engine
Electronic records education and consulting
Specialty EDRMS deployment tools for Microsoft SharePoint

Course Topics

Topic	Description
EDRMS Fundamentals	
Recordkeeping Fundamentals	Learn the essential principles, language and concepts of records management such as declaration, disposition versus deletion, classification, qualification, and more. What does “compliance” really mean?
SharePoint IA	Learn a SharePoint Information Architecture (IA) that will support recordkeeping compliance, and the role of the metadata within that architecture. Learn how SharePoint sites, libraries, content types, columns are utilized.
Key Success Measures	Learn the (3) key measures that will objectively quantify and prove that your project is in fact records-compliant.
The Retention Schedule	Understand why your existing retention schedule will have to change, and how to adapt it for ERMS usage.
Proving Compliance	How do we measure, and prove, we have achieved recordkeeping compliance?
EDRMS By the Numbers	Every EDRMS project has several important internal numbers that will drive the scope/scale of the project, level of effort, duration, and more. Learn to identify your project’s numbers, and use these numbers to manage your records successfully.
Case Records	The single biggest point of failure in most EDRMS projects. Over 60% of all records are case records. Learn how they must be treated differently, how to deploy them in SharePoint, how disposition is handled with them, and how to manage them properly.
The Two Lethal Threats	Understand the two lethal threats to an EDRMS project, and how to avoid them.
Email	A good proportion of corporate email are records. Learn how to identify the email records, then how to capture them in order to manage them as records.
The 3 Key Roles	Understand, and clearly articulate, the roles of the three key players in any EDRMS project. The RIM professional, the IMA (Information Management Administrator), and the IT team. What do they do, and how much do they need to contribute?
Records Automation	Compliance comes from the organization, not from end users. Learn why records automation is critical to a successful records-compliant deployment of SharePoint.
Project Management Topics	
Project Tasks	Learn the 26+ tasks of all EDRMS projects.
Project Model	Use RIMtech’s proprietary EDRMS Project model to reliably and easily project required resource allocations, effort levels, project duration, and costs.
Skills	Understand the new skills that will be required by key project stakeholders.
Outside Services	Typically, outside services will be required for specialized SharePoint skills you do not have in-house. Identify and cost out such skills.
Project Burden	After the project has been fully deployed, you’ll need to identify the effort and skills needed to keep the project healthy on an ongoing basis. We refer to this as “burden”, and you’ll need to quantify it.
Change Management	Identify key tasks to manage the change and their impact on end users.
Risks	Identify key project risks and devise reasonable mitigation measures

Advantages of RIMtech Training

- ✓ 100% vendor neutral content. No ties to products or services providers.
- ✓ Instruction by **Bruce Miller**. Learn from, and interact with, the top expert in electronic recordkeeping.
- ✓ We understand records management. We speak your language.
- ✓ We understand IT. We speak your language also!
- ✓ We simplify complex technology so you can understand it.
- ✓ More than just consulting. [Catalyst IG Tools](#) – use the world’s only specialized tools for EDRMS deployment.
- ✓ Live instruction – not pre-recorded.
- ✓ Real-world examples and experience from actual projects.
- ✓ The very latest in technology, techniques, and methods.
- ✓ Best practices, developed by RIMtech.
- ✓ Engaging, dynamic, interactive instruction. Exercises to facilitate learning.
- ✓ You get to keep materials and tools following completion.
- ✓ Access to full session recording
- ✓ CRM/IGP credits for all courses.
- ✓ Official Completion Certificate.

Registration Form (1 form per participant)				Class	EDRMSPMDD 1U
Mr/Ms/Mrs.	Name			Title	
Organization			Dept.

Technology Requirements

1. Reliable, stable high-speed Internet connection
2. Zoom App available at <https://zoom.us/download> (downloads automatically upon first meeting sign-in)
3. Camera optional but recommended

Terms and Conditions

This is a summary only. See <https://www.rimtechconsulting.com/terms-conditions> for our detailed Terms and Conditions.

1. **Equipment Requirements.** Each participant is responsible for the technology requirements above in order to participate successfully in any RIMtech online class or event.
2. **No Recordings.** Sessions are not recorded, to protect the privacy of participants.
3. **Class Materials.** Participants will receive all class materials in electronic form. Materials will be posted to a restricted page of RIMtech's website for that particular class.
4. **No-Shows.** If a participant fails to attend a class without a notification of cancellation, no refund will be issued. RIMtech will make the class materials available for that participant.
5. **Payment.** Payment, or a Purchase Order, must be received by the class date. All invoices are due within 30 days.
6. **Participant Contact.** We require the name, email addresses, and telephone number of each participant prior to the start of each class.
7. **Participant Substitution.** A participant may be substituted at any time, by contacting natalie@rimtechconsulting.com.
8. **Participant Cancellation.** To cancel, you must notify us 5 days prior to the class date. The class fee will be refunded less a 10% administrative fee. If cancellation is received later than 5 days prior to class start date, participant may nominate a substitution, or RIMtech will issue a credit voucher for the full amount of the class, redeemable for 1 year against any class of equal or lesser value.
9. **RIMtech Cancellation.** RIMtech reserves the right to cancel any class for any reason, such as a failure to reach the minimum class registration size, instructor illness, etc. In such an event, RIMtech shall refund the full registration fee paid. RIMtech will make every effort to notify registrants as soon as possible of any such cancellation.
10. **RIMtech Postponement.** RIMtech reserves the right to postpone/reschedule any class for any reason and will, in such an event, work with registrants to find a mutually acceptable reschedule date. If such a date is not acceptable to any registrant, a full refund will be issued. RIMtech will make every effort to notify registrants as soon as possible of any such cancellation.
11. **Liability.** RIMtech assumes no liability for changes in course dates or content.
12. **Currency.** All fees are in US dollars.
