

State of the Art Electronic Recordkeeping Techniques & Technology

Microsoft 365™ Recordkeeping Functionality - Basic

Duration
8 hours (1 day)

Instruction by Bruce Miller IGP, MBA

M365 RM1V

RIMtech Private Online Courses are delivered on-demand to a single organization, with up to 10 participating employees. Content is focused/tailored to your organization, and your particular requirements/interests.

Microsoft 365

Microsoft 365¹ is Microsoft's office productivity suite and content management/governance solution. Recordkeeping capabilities are contained within its Compliance function. If you're considering this product, or if you already have it, this "How to" introduction of the product will show you what you need to know to successfully achieve recordkeeping compliance. This course is not a hands-on product training experience, rather you'll learn the terms, concepts, principles, capabilities and limitations of the product. And this course will be enormously beneficial either *before* or *after* you've completed any hands-on product training. You'll learn the product's capabilities and limitations, and how to use it effectively. This course is designed and delivered by **Bruce Miller**, author, independent consultant, and leading expert in electronic recordkeeping, and author of "*Managing Records in SharePoint*". Bruce is vendor-neutral – he has no stake in any product. You therefore get truly independent analysis and objective assessment of the product's capabilities, along with his deep understanding of the competitive position of all products. After completing this course you'll be able to apply your new knowledge and insight to make product selection and/or deployment decisions. You'll fundamentally understand the product, and learn what it really takes to deploy it in a real-life project.

Learning Objectives

Upon completion of this workshop, participants will be able to:

- Understand the capabilities and limitations of the product
- Know what sources of records can be managed.
- Assess the implication and costs of preservation copies.
- Learn how the product handles your retention schedule.
- How the product manages physical records
- Understand the new regime of Recycle Bins
- Define and deploy sophisticated multi-phase retention rules
- Assess how close the product comes to US DoD 5015.2 requirements
- Understand how formal records disposition is carried out

Who Will Benefit

All project stakeholders will benefit from this workshop, including Records/Information Management professionals, IT managers and specialists, project managers, compliance officials, and senior management.

Takeaway Tools

Participants are supplied with all course materials, including diagrams and summaries of M365 capabilities.

Testimonials

"I loved the performance measure aspect, and 20 suggested decisions. This was worth the cost of the course alone."

"I really liked the presenter. He engaged the attendees and asked thought-provoking questions that generated some lively conversations."

"This was one of the most engaging and informative seminars I can remember attending. I got a lot of great takeaways and can enthusiastically tell my employer that this was a productive use of my time and training dollars."

"Thank you! This course hit the nail on the head – it touched on many of the issues that I see in the workplace and provided me with the guidance and affirmation that will help me to manage these issues. Awesome seminar!"

¹ This course covers the Enterprise License level **E5** only.

Instructor

Bruce Miller, MBA, IGP is a world leading expert on electronic recordkeeping. He is an independent consultant, an author, and an educator. Widely regarded as the inventor of modern electronic recordkeeping software, he pioneered the world's first commercial electronic recordkeeping software in 1989. In 1997 he achieved the world's first e-Records software certification against the US DoD 5015.2-STD standard, and has since presided over several successful software certifications. In 1999 he developed the world's first e-Records software **engine** for business software. That year he received ARMA Canada's National Capital Region's **Ted Ferrier Award of Excellence** for his contribution to the field of records management. Bruce's software was the first technology in the world to be certified against the revised 5015.2 June 2002 standard. In 2002 his company was acquired by IBM, where he served for three years as IBM's global e-Records Strategy and Business Development Executive. At IBM he was honored as a *Technical Leader*, one of only 439 out of 360,000 IBM employees. Mr. Miller is the recipient of the prestigious 2003 **Emmett Leahy Award**, considered the highest international recognition given to professionals in the field of information and records management. His book "*Managing Records in Microsoft SharePoint 2010*" was an ARMA best seller, and the second edition was released in October 2015. Bruce holds a Diploma in Electronics Engineering Technology, a Masters in Business Administration from Queen's University, and is a certified Information Governance Professional.

Course Topics

Topic	Description
System Architecture	Where the product stores records, how it applies records control to various systems.
Records Sources	What records sources (SharePoint, file shares, Outlook, Teams, etc.) are supported, and what level of records control is provided for each.
Records Control	How records control is applied to documents. When and how are documents managed as records, and the details of a declared record.
Preservation Copies	How preservation copies are deployed, managed, and dispositioned.
The Retention Schedule	How the retention schedule is entered, managed, and maintained over time
Retention Rules	How to define and deploy multi-stage, multi-part retention rules based on various date and event triggers
Physical Records Management	How physical records are structured, named, enumerated, labeled, stored, and managed. How they are related to their electronic counterparts by category.
Legal Holds	How legal holds are defined, deployed, and lifted. Limitations of holds. When to use a third party legal hold system.
US DoD 5015.2 Compliance	Learn the extent to which the product complies with the US government standard.
Records Search & Retrieval	How to effectively search for records across multiple records sources
Disposition	How the product assesses and qualifies records eligible for disposition. Understand approvals, reviews, and destruction certificates
Auditing	What events are audited, how/where to configure and retrieve the audit trails, how to report and present records audits.
Pricing/Licensing Model	Understand the vendor's particular pricing and licensing model. Learn to project initial and recurring costs.

Advantages of RIMtech Online Private Courses

- ✓ Content focused/tailored to your organization only, and your particular requirements/interests
- ✓ 100% vendor neutral content. No ties to products or services providers.
- ✓ Instruction by **Bruce Miller**. Learn from, and interact with, the top expert in electronic recordkeeping.
- ✓ Live instruction – not pre-recorded.
- ✓ Real-world examples and experience from actual projects.
- ✓ The very latest in technology, techniques, and methods.
- ✓ Engaging, dynamic, interactive instruction. Exercises to facilitate learning.
- ✓ You get to keep materials and tools following completion.
- ✓ CRM/IGP credits for most courses.
- ✓ Official Completion Certificate.

Registration Form (1 form per class)				Class	M365 RM1V
Mr/Ms/Mrs.	Name			Title	
Organization			Dept.		
Address					
City		State/Prov	Zip/PostCode		Country

Technology Requirements

1. Reliable, stable high-speed Internet connection
2. Computer/laptop with a hands-free microphone (headset, or built-in)
3. Zoom App available at <https://zoom.us/download> (downloads automatically upon first meeting sign-in)
4. Camera optional but recommended
5. Printer to print out course exercise materials (highly recommended)

Terms and Conditions

This is a summary only. See <https://www.rimtechconsulting.com/terms-conditions> for our detailed Terms and Conditions.

1. **Equipment Requirements.** Each participant is responsible for the technology requirements above in order to participate successfully in any RIMtech online class or event.
2. **Class Materials.** Participants will receive all class materials in electronic form. Materials will be posted to a restricted page of RIMtech's website for that particular class.
3. **No-Shows.** If a participant fails to attend a class, RIMtech will make the class materials available for that participant.
4. **Payment.** Payment, or a Purchase Order, must be received by the class date. All invoices are due within 30 days.
5. **Participant Contact.** We require the name, email addresses, and telephone number of each participant prior to the start of each class.
6. **Participant Substitution.** A participant may be substituted at any time, by contacting natalie@rimtechconsulting.com.
7. **Class Size Reduction.** Participant cancellations may result in a reduction in class size to a lower price level (e.g. from max 6 to max 3). In this case the difference in price between the original and the new class size will be refunded.
8. **Buyer Cancellation.** To cancel, you must notify us 10 days prior to the class date. The class fee will be refunded less a 10% administrative fee. Any cancellation received later than 10 days prior to class start date shall be liable for the full class fee.
9. **RIMtech Cancellation.** RIMtech reserves the right to cancel any class for any reason and will, in such an event, refund the full class cost. RIMtech will make every effort to notify registrants as soon as possible of any such cancellation.
10. **Buyer Postponement.** RIMtech will work with registrants to find a mutually acceptable reschedule date. If such a date is not acceptable to the buyer, a full refund will be issued less a 10% administrative fee.
11. **RIMtech Postponement.** RIMtech reserves the right to postpone/reschedule any class for any reason and will, in such an event, work with registrants to find a mutually acceptable reschedule date. If such a date is not acceptable to the registrants, a full refund will be issued. RIMtech will make every effort to notify registrants as soon as possible of any such cancellation.
12. **Liability.** RIMtech assumes no liability for changes in course dates or content.
13. **Currency.** All fees are in US dollars.
